

Invitation to the seminar "Cell Death"

- 13.00 - 13.15 **Maria José Mendiburo**, Signal Transduction of Autophagy
Molecular Medicine I,
Düsseldorf
- 13.25 - 13.55 **Marcus Conrad**, Ferroptosis
Developmental Genetics,
Helmholtz Zentrum, München
- 14.05 - 14.45 break
- 14.45 - 15.15 **Sophie Vriz**, Apoptosis and redox signalling in
Interdisciplinary research in adult caudal fin regeneration
biology, Diderot University,
Paris
- 15.25 - 15.55 **Judith Haendeler**, The anti-apoptotic properties of
Environmentally-induced APEX1 in the endothelium require
cardiovascular degeneration, the first twenty amino acids and
IUF, Düsseldorf converge on Thioredoxin-1
- 16.05 - 16.20 **Thomas Hildebrandt**, Inhibited LSD1 activity: Cell death
Neurology, Düsseldorf and differentiation

afterwards barbecue, drinks, discussions

22.06. 2018

**Life Science Center, Merowinger Platz 1a,
40225 Düsseldorf**

Ansprechpartner:

Carsten Berndt, Neurologie, Universitätsklinikum Düsseldorf, Tel. 0211 302039220, carsten.berndt@med.uni-duesseldorf.de
Andreas Meyer, Chemical Signalling, Universität Bonn, Tel. 0228 7360353, andreas.meyer@uni-bonn.de
Jan Riemer, Biochemie, Universität zu Köln, Tel. 0221 470 7306, jan.riemer@uni-koeln.de
