

Invitation to the seminar "thiol modifications"

13.00 - 13.40	Jean-Francois Collet, de Duve Institute, Brussels	Disulfide formation
13.50 - 14.30	Miriam Cortese-Krott, Cardiology, Pneumology and Angiology, Düsseldorf	Nitric oxide/sulfide cross talk: The role of nitrosothiols
14.40 - 15.00	break	
15.00 - 15.20	Katrin Nau, Molecular Proteomics Laboratory, Düsseldorf	Detection of thiol modifications by mass spectrometry
15.30 - 15.50	Klaudia Lepka, Neurology, Düsseldorf	Metal-thiol interactions
16.00 - 16.20	Isabel Aller, Chemical Signalling, Bonn	Disulfide formation in the Endoplasmic Reticulum of plants
16.30 - 16.50	Stefan Sobek, Clinical Chemistry and Laboratory Medicine, Düsseldorf	Thiol-mediated regulation of mitochondrial transcription

afterwards Pizza, drinks, discussions

09.02. 2015

**Life Science Center, Merowingerplatz 1a,
40225 Düsseldorf**

Ansprechpartner:

Carsten Berndt, Neurologie, Universitätsklinikum Düsseldorf, Tel. 0211 302039220, carsten.berndt@med.uni-duesseldorf.de
Andreas Meyer, Chemical Signalling, Universität Bonn, Tel. 0228 7360353, andreas.meyer@uni-bonn.de
