

## Invitation to the seminar

### "*In vivo* redox processes"

13.00 - 13.40	<b>Ilka Wittig,</b> Functional Proteomics, Frankfurt/Main	Methods to study thiol-modifications and protein complex dynamics
13.50 - 14.30	<b>Lars Leichert,</b> Microbial Biochemistry, Bochum	The redoxome: from oxidative thiol modification to N-chlorination
14.40 - 15.10	break	
15.10 - 15.30	<b>Sajid Bangash,</b> Chemical Signaling, Bonn	Cellular GSH homeostasis
15.40 - 16.00	<b>Stefanie Müller,</b> Chemical Signaling, Bonn	Glutathione reductase mutants in <i>A. thaliana</i> and <i>P. patens</i>
16.10 - 16.30	<b>Alican Erdogan,</b> Biochemistry, Köln	Tissue dependence of the mitochondrial machinery for oxidative protein folding
16.40 - 17.00	<b>Aleksandra Trifunovic,</b> Institute of Genetics, Köln	Redox signaling in <i>C. elegans</i>

**afterwards Pizza, drinks, discussions**

**13.02. 2017**

**seminar room 4th floor, Institute of Genetics,  
Zülpicher Str. 47a, 50674 Köln**

---

**Ansprechpartner:**

**Carsten Berndt,** Neurologie, Universitätsklinikum Düsseldorf, Tel. 0211 302039220, carsten.berndt@med.uni-duesseldorf.de  
**Jan Riemer,** Biochemie, Universität zu Köln, Tel. 0221 470 7306, jan.riemer@uni-koeln.de
